OMAG-40-Ndw	white	40	7.8	35	10.2	two-pole	5 piece

Featuring a plastic coating and a powerful neodymium magnet, our coloured office magnets provide a secure hold and are ideal for anyone who needs extra holding power. Not only suitable for office organisation, they are also perfect for presentations, flipcharts or whiteboards. Our classic organisation magnets are extremely versatile and offer optimal solutions.

PRODUCT NOTE:

The following colours are also available: brown, grey, light blue, pink, turquoise, violet.

The NdFeB magnets below diameter 25 do not have a plastic ring on the holding surface.

As an alternative to the standard, we also offer individual solutions:

" Plastic housing in special colours

" Individually printable

* The forces have been determined at room temperature on a polished plate made of steel (S235JR according to DIN 10 025) with a thickness of 10 mm (1kg~10N). A deviation of up to -10% from the specified value is possible in exceptional cases. In general, the value is exceeded. The type of application

(installation situation, temperatures, counter anchors, etc.) sometimes influence the forces enormously. The values given are for orientation purposes.

Let our experts advise you.
